#### **About Active Biotech**

Active Biotech AB (NASDAQ OMX NORDIC: ACTI), headquartered in Sweden, is a biotechnology company with R&D focus on autoimmune/inflammatory diseases and cancer. Projects in pivotal phase are laquinimod, an orally administered small molecule with unique immunomodulatory properties for the treatment of multiple sclerosis, as well as ANYARA for use in cancer targeted therapy, primarily renal cancer. Further key projects in clinical development comprise the three orally administered compounds TASQ for prostate cancer, 57-57 for SLE and RhuDex<sup>™</sup> for RA. Please visit [www.activebiotech.com](http://www.activebiotech.com) for more information.

Active Biotech is required under the Securities Markets Act to make the information in this press release public. The information was submitted for publication at 10:00 am CET on May 18, 2010.
