About London Mining Plc

Incorporated and registered in the UK, London Mining is developing mines to supply the global steel industry. The Company has operational mining, exploration and development projects located in Brazil, Sierra Leone, Greenland and Mexico. In 2007, London Mining raised over US\$125million in equity and US\$60m in debt to finance development and expansion of its operations to meet the demand of world steel consumption.

Core near term objectives:

- Ramping up production to over 5mtpa from its operating itabirite iron ore mine in Brazil
- Bringing into production a previously mined specular hematite iron ore operation in Sierra Leone
